as possible

About Competa

Founded in 1997 as a spin-off from Shell Research in the Netherlands, Competa delivers the expertise clients need to build the tech their business relies on. Our origins were in designing, building and management of data centre infrastructure. In response to changing demand we have specialised in software development since 2010. From our headquarters in The Hague, Competa mainly services the Randstad area. Our office in Nairobi Kenya supports clients operating in Africa. Market leaders in sectors such as Finance, Engineering, Media and Medical hire us because we love to build software that works, looks good and is easy to use.

Job description:

As a front-end Developer at Competa you will work on-site for scale-ups to major companies. You need to be specialized in Angular, Vue or React for a minimum of 3 years and minimum 4 years of HTML5, Javascript and CSS.

What you'll do:

- Depending on your expertise, ambitions and living area, we will find a suitable project where your role will be to lead development teams and deliver products. You will use your experience to ensure the highest standards of work.
- Our talent management program will help you realise your ambitions through “personal sprints”, combined with our resource team that is committed to make sure your next project is a level up.
- We provide you with the best opportunities for your professional and personal career development.

Qualifications:

- Bachelor's degree or Master degree in Computer Science, Informatics, or an equivalent degree
- You need to be specialized in Angular, Vue or React for a minimum of 3 years and minimum 4 years of HTML5, Javascript and CSS.
- Track record in developing, optimising and setting up large projects
- Understanding of security within backend programming
- Understanding of DevOps environments
- Experienced with testing, debugging, and automation techniques
- Proficient in English and preferably Dutch
- You possess strong communication/social skills
- You are currently working/living in the EU and have a valid working permit.
